

## BROMSGROVE SCHOOL

### **IB RESULTS 2018**

Bromsgrove School is delighted to report an average score of 38.4 points from its biggest cohort since starting the qualification in 2010. This score is equivalent to 4 x A\* at A level.

All 56 students scored above the IB's world average score with 30 or more points, with twenty students gaining a result of 40 points or more. Two students gained 44, just one point away from the top possible score of 45. A further five students gained 43 points including twins Vinzenz and Xaver Freigassner, both of whom will continue their studies in the UK - one at Imperial College London and the other at UCL.

Whilst university destinations are in some cases still to be confirmed, we are expecting two-fifths of this group to progress to undergraduate courses at one of the more competitive London Schools or Colleges including LSE, Imperial UCL or KCL.

Well done to all the students on these fantastic results – they have all worked hard and should be proud of their achievement.
