

# Bromsgrove School Wi-Fi Access

This is a one-time operation per device. You must give the school permission to install a network certificate to use our Wi-Fi; your use will also be monitored to ensure everyone's safety and security. Should you need assistance please call IT on 01527 572120 or Ext 319.

## Apple iPhone/iPad

- Connect to the wireless network: **BS-Onboard**
- Open an internet browser (Safari) and visit the website: **http://wi.fi**
- Agree to the T&Cs and select **Staff and Pupils**
- Enter your network username and password  
Guests and visitors to the school should use:  
**UN: visitor                      PW: Bromsgrove12**
- You will be prompted to install a Bromsgrove School profile to your device, click on install in the top right corner
- Open Settings on your iOS device, select 'General' then 'About', then 'Certificate Trust Settings' and set all certificates to enabled
- Open Settings, then Wi-Fi and tap on **BS-Onboard** and select 'Forget this network'
- Connect to the wireless network: **BS-Secure**

**NOTE:** If your device has worked with the system but now fails to connect to **BS-Secure** then please try restarting it (power off & on) before contacting us; we have found this often resolves the issue.

**Please disable any of the following software and services on your device; failure to do so may impede your ability to use the school Wi-Fi:**

- Any *data saver* service, eg. Opera, Google Chrome (data saver)
- VPN or Proxy services, ie. software or a service that makes you appear to be on a different network or browse from a different country
- Remote access software, eg. TeamViewer

## Android (Google)

- Connect to the wireless network: **BS-Onboard**
- Open your internet browser (Chrome preferred) and visit the website: **http://wi.fi**
- Agree to the T&Cs and select **Staff and Pupils**
- Enter your network username and password  
Guests and visitors to the school should use:  
**UN: visitor PW: Bromsgrove12**
- Tap **"Show all operating systems"** at the bottom of the page
- Tap **"Other operating systems"** near the bottom of the page
- Tap **"Step 1: Install The CA Certificate"** For **"Certificate name"** type **"BS-SECURE"** and set **"Credential use"** to **"Wi-Fi"** and tap **"OK"**
- Tap **"Step 2: Install The CA certificate"** For **"Certificate name"** type **"lightspeed"** and set **"Credential use"** to **"VPN and apps"** and tap **"OK"**
- Tap **"Step 3: Install Your Certificate"** and enter your network password. For **"Certificate name"** type **"\*YourUserName\*@byod.bromsgrove-school.co.uk"** and set **"Credential use"** to **"Wi-Fi"** and tap **"OK"**
- Now go into your wireless settings, hold down on **"BS-Onboard"** and tap **"Forget This Network"**
- Tap **"BS-Secure"** to bring up the connection settings
- Set the **"EAP method"** to **"TLS"** and set the **"CA certificate"** to **"BS-SECURE"** and the **"User certificate"** to **"\*YourUserName\*@bromsgrove-school.co.uk"**
- For the **"Domain"** setting type **"Bromsgrove-school.co.uk"** and for the **"Identity"** setting type your user name
- Tap **"Connect"** and you should now have internet access

**NOTE:** If your device has worked with the system but now fails to connect to **BS-Secure** then please try restarting it (power off & on) before contacting us; we have found this often resolves the issue.

**Please disable any of the following software and services on your device; failure to do so may impede your ability to use the school Wi-Fi:**

- Any *data saver* service, eg. Opera, Google Chrome (data saver)
- VPN or Proxy services, ie. software or a service that makes you appear to be on a different network or browse from a different country
- Remote access software, eg. TeamViewer
